Date: Thursday, December 04, 2014 9:25:18 AM

We are just soaking the equipment in a diluted solution of the deodorizer. Two laborer spent about a ½ hr to set it up. We will take them out today and rinse them with clean water. This will take an hour. We are moving them to the front office to dry and next week when you are here Air gas will come by to inspect and hopefully pick them up. LSC

Understood on the demobilization of equipment. We are trying to get the smell out of the hip air equipment so we can return them to Air Gas. LSC

Remember, you only make recommendations on demobe of equipment and pass to me for final approval.
Deodorizing air equipment?

Gary:
We do have the Adler Frac Tank. The mat and containment are not being rented. I had to purchase them due to damage. I agree that we need to return what we can. We are also still working on deodorizing the air equipment. I will try and get an update on the Vacuum Boxes at Veolia.

Leroy:

We also have the matts and containment from Adler. The reason that I am asking is that we need to see if anything can be returned but it looks like you are starting to look at that. In order to do that, we need to know everything that we have onsite.

Thanks

Gary:

We have the Office Trailer, Overhead Lift and Generator from Hertz, Bobcat from SWSES, Pressure Washer, Carbon Unit from Carbon Air, Vacuum Truck/Air Mover combination from Vacuum Truck Rentals, 2 Pickups from SWSES, 6 Open top roll offs from Dynamic, tomorrow we will bring back the pumps. We also are renting the Closed top roll off from Dynamic. We sent one to TIBM and it will be returned to Dynamic today. This leaves us with nine. I have been updating the list on the work order daily.

Leroy:

It look fine to me but you need to have Warren look at it and sign since I am not on-site.

Can you give me a list of rental equipment that we have on-site?

Thanks
